HOW TO HELP
SORTING OUT A PROBLEM

KUBO®

**1** **Open My KUBO App.**

Double tap in the lower right corner of the screen.

2 **Depending on the screen size the debug screen will look like this:**

or

Click on "Console" (on the first screen) or click ☰ on the top left and then "console" (second screen).

Here, messages will be displayed when trying to connect a KUBO to the app.

Screenshot this window, or send us video to help us debug the issue.

You can send the files to: yourfriends@kubo-robot.com

3 **To exit, please click ⊗ on the top right corner.**
